

**Run by Vets...For Vets
VetsSharing the benefits!**

VetShare membership is open to any independent veterinary practice that wishes to have the buying power of a much larger group without losing their identity and their independence.

VetShare was formed in 2008 and designed to be different. It offers:

- * No joining fee
- * No restrictions on what you can order
- * You still pay your wholesaler direct and so avoid the risk of paying a third party and upsetting cash flow through imposed early settlement dates
- * No need to change wholesaler and so keep your existing account number
- * Clarity - no hidden charges or costs – 100% of rebates received passed on
- * Benefit from excellent discounts from a wide range of pharmaceutical companies
- * No obligation three month FREE trial
- * Then low management fee on which SPVS members get 10% discount
- * Receive great discounts and benefits from our “preferred service suppliers” on other practice essentials (on which no management fee is payable - members get the discounts direct from the company supplying the service):
 - In-house laboratory supplies and equipment
 - External laboratory services
 - Health and safety and employment law advisory service
 - Healthcare Plans including direct debit administration
 - Cremation services
 - Instruments, Orthopaedic Implants, Consumables, Equipment,
.....and much much more

- How often do you check that you have received your full rebate entitlement from every manufacturer that you deal with? - we do every month.
- Do you know the precise total amount of your rebate for every month? - we could be telling you that.
- How often do you renegotiate your terms with them? - we do every time we meet them which is typically every few months.
- Ever tried getting the quarterly payers to pay monthly? - we do and have succeeded in nearly every case.
- Are you aware of all the other bonus deals out there? - we are.
- Do you just give up if someone refuses you discount? - we will set up our own acquisition and distribution if we need to.
- Do you spend hours comparing the real prices of pharmaceuticals that you are offered? - we do, and have a net net guide calculator that will help you with your mark-ups as well.

Sound too good to be true? - Talk to us today.

All this, and if you don't think you are benefiting from membership of VetShare then you are free to leave at any time without penalty.
