

EMS placement Health and Safety Self-Assessment for students

The purpose of this self-assessment is to provide information to a prospective EMS provider practice prior to undertaking the placement. Please contact your provider practice 4 weeks before your placement to discuss any general requirements of the practice

This form should be emailed to the practice 2 weeks ahead of the placement to allow for evaluation by the practice to ensure all necessary procedures are in place to allow for a placement to proceed as safely as possible. Please answer all questions carefully and accurately.

NAME	
UNIVERSITY	
CURRENT YEAR	Final/ Penultimate/ Initial

COVID Prevalence in 2 weeks period prior to placement

What is the prevalence in your immediate geographic area (5 mile area, Middle Super Output Area) for the most recent week by entering your postcode in the Coronavirus Data website and then clicking on your area to reveal rolling case rate. [Click here to view map.](#)
